'Bhai-Lang', a JavaScript-based programming language built by two Indian developers, goes viral

Bhai-Lang is a new programming language developed by two Indian developers - Rishabh Tripathi from Groww and Aniket Singh from Amazon. The code of the programming language begins with "hi bhai'', while it ends with "bye bhai''. Netizens are amused by this toy programming language.

Like other programming languages, "Bhai-Lang" too has syntax. As per the official website of the language, all codes written inside these tags will be valid while everything outside of it will be ignored. The code begins with "hi bhai", while it ends with "bye bhai". If there is any error, "Arre Bhai Bhai Bhai!!!" message will appear.

On the website's playground feature, users are allowed to play around with the code, so that they can execute commands and tasks using "Bhai-lang". The screenshots of the programming language are doing rounds on social media."bye bhai". If there is any error, "Arre Bhai Bhai Bhai!!!" message will appear.

```
hi bhai
 bol bhai "Hello World";

  bhai ye hai a = 3;
  bhai ye hai b = 0;

  jab tak bhai (b < 5) {
    bol bhai b;

    agar bhai (b == a){
      bol bhai "b is equal to a";
    }
```

Elon Musk's Starlink app becomes most- downloaded in Ukraine: Report

Elon Musk-owned Starlink's app was the most-downloaded app in Ukraine on Monday afternoon after reaching the top spot on Sunday, media reports said. Sensor Tower said the app was downloaded 21,000 times globally Sunday across Apple and Google app stores, of which most downloads came from Ukraine. It has been downloaded nearly 1,00,000 times in Ukraine according to Sensor Tower.

Starlink provides high-speed, low-latency broadband internet across the globe.Using advanced satellites in a low orbit, Starlink enables video calls, online gaming, streaming, and other high data rate activities.

Harvard student launches website for Ukrainian refugees after 3 sleepless nights

Avi Schiffmann, a 19-year-old neurophilosophy student at Harvard University, launched the website 'Ukraine Take Shelter' with his friend Marco Burstein to help Ukrainian refugees to find temporary places to stay. It connects Ukrainian refugees with potential hosts and housing from around the world. "We didn't sleep for three days, we got it (website) up as fast as possible," Schiffmann said.

First drone school inaugurated in Madhya Pradesh's Gwalior

Madhya Pradesh CM Shivraj Singh Chouhan and Union Civil Aviation Minister Jyotiraditya Scindia inaugurated the first "drone school" in Gwalior on Thursday. Chouhan said that this is the first of the five drone schools that have been planned in the state. He added that the use of drones will increase in the coming times and will create employment opportunities.

RBI launches UPI for feature phones; transactions won't require internet

RBI Governor Shaktikanta Das has launched a UP|-based payment product for feature phones called UP|123Pay. The product will allow customers to use feature phones for almost all transactions, except scan and pay, and it doesn't need an internet connection for transactions. This will help PCI reach its goal of processing a billion transactions a day, the RBI said.

Microsoft to set up its largest Indian data centre region in Hyderabad

Microsoft on Monday said it plans to establish its largest Indian data centre region in Hyderabad, with its first phase expected to become operational by 2025. Microsoft India President Anant Maheshwari said the company is making long-term investments and that it has doubled its existing three data centres capacity.

"A Microsoft datacenter region provides a competitive advantage to our digital economy and is a long-term investment in our country's potential. The cloud is transforming every industry and sector. The investment in skilling will empower India's workforce today and into the future," said Rajeev Chandrasekhar, Minister of State for Skill Development and Entrepreneurship.

"We already serve more than 3,40,000 companies in India," he said.

WORLD NEWS IN A NUTSHELL

Ukraine-Russia War Threatens The American Investors

The ongoing Russia-Ukraine war is degrading Americans' financial outlook, sparking the desire to save more and postpone investing, according to a survey from MassMutual.

 But the financial experts say that steering clear of stock market volatility may be a mistake.While two-thirds of Americans worry the conflict will hurt their wallets, with nearly half eager to save more cash and 42% delaying investments, the report found.

"For a year that started with such hope and optimism, many are extremely concerned about the U.S. economy," said Amanda Wallace, head of insurance operations with MassMutual, pointing to stress about day-to-day expenses and financial insecurity

Telangana to back for education of students returned from Ukraine

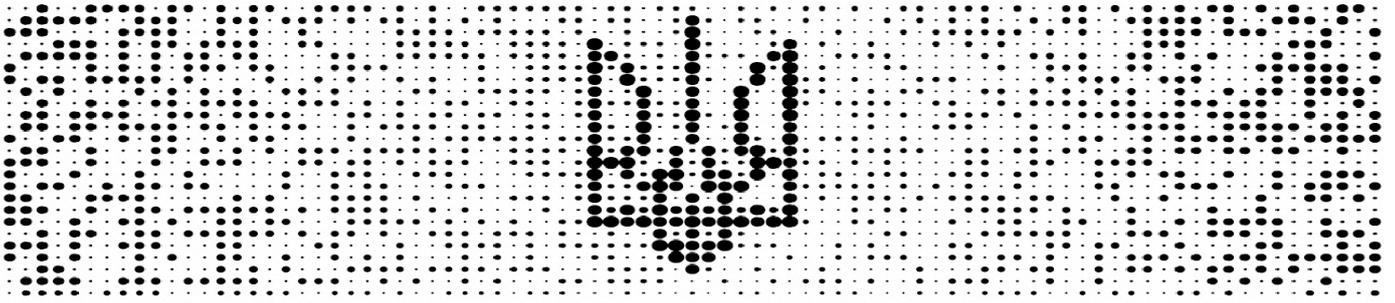

The Telangana government announced that it will provide the educational expenses of over 700 students brought back from war-torn Ukraine to enable them to complete their medical education in India.

Chief Minister K. Chandrasekhar Rao told the Assembly that the state government will write to the Central Government to give permission to 740 students who were forced to discontinue their education and return home from Ukraine to complete their MBBS course in India.

He also added that since the students face an uncertain future due to the current situation in Ukraine, the state government is ready to bear the expenses to help them complete their MBBS.

Ukraine launches a NFT 'Museum of War' for crypto fundraising

META HISTORY
MUSEUM OF WAR

NEVER FORGET THIS

Ukraine started auctioning off a collection of non-fungible tokens (NFTs) in an expansion of a cryptocurrency fundraising push that has already collected more than $65 million for its war effort.

The 'Meta History: Museum of War' collection is a series of digital images - including silhouettes of warplanes, screengrabs of news reports and a cartoon-style image of an explosion - each one marking a different day in the conflict.

Ukraine's Ministry of Digital Transformation started appealing for donations in digital tokens such as bitcoin and ether three days after Russia launched its invasion, which Moscow calls a "special military operation".

Tata Motors Launch Mobile Showrooms:"ANUBHAV"

Tata Motors recently launched a mobile showroom facility named "Anubhav" based on the Tata Intra V10. Tata developed a total of 103 of the Anubhav mobile showrooms across the country.

These mobile showrooms will help existing dealerships offer a doorstep sales experience to customers and assist them with information about all Tata cars, accessories, avail finance schemes, book a test drive and evaluate existing cars for exchange.

Tata said that a total of 40% of passenger car sales comes from rural areas and this initiative will help them increase their reach in Tehsils and Talukas. Tata is going to fit these mobile showrooms with GPS trackers to monitor the movement for better utilisation.

Govt working on crypto classification under GST law

The Centre is considering the classification of cryptocurrency under the GST law so that tax can be levied on the entire value of the transaction.

At present, 18% Goods and Services Tax is levied only on services provided by crypto exchanges and is categorised as financial services. GST officers told the PTI news agency that cryptocurrencies are similar to casinos, gambling, betting, which have 28% of the GST on the entire value.

The GST has not yet clearly made a classification of cryptocurrency. In the absence of a law regulating such virtual digital currencies, the classification has to take into account whether the law classifies it as an actionable claim.

The 2022-23 Budget has brought in clarity with regard to the levy of income tax on crypto assets.

India expected to have over 100+ new unicorns in 2022

Accelerated funding activity is expected to create over 100+ unicorns in India during 2022.

According to HDFC Securities, one unicorn has been added for every 5 days within the first 2 months of 2022 and funding activities have created 42 unicorns in 2021.

In financial parlance, a startup is considered to have become a unicorn once it achieves a value of over $1 billion. Furthermore, India saw record fund inflows of $66 billion across 2.1K deals in 2021.

Zomato to acquire Blinkit in stock deal;

Zomato Ltd is set to take control of Blinkit after the food aggregator extended a $150 million emergency loan facility to the quick commerce startup.

The deal value is significantly lower than the unicorn status which "Blinkit" achieved after getting more than $120 million from Zomato and investor Tiger Global Management. Zomato owns about 10% of Blinkit. The pared-down valuation indicates Blinkit (run by Grofers India Pvt. Ltd) may be struggling to sustain the 10-minute delivery of groceries.

Dubai: The city that incubates a culture of entrepreneurship

With a slew of business-friendly policies, measures and initiatives, Dubai is not only being perceived as a global hub for entrepreneurship and start-ups but also attracting some of the most impressive talents to the region.

What's also important to note is that the city offers the perfect environment to cultivate, nurture and boost entrepreneurship in the region.

Whether it's 100% ownership of businesses by foreign nationals, extended visas for entrepreneurs with enterprises, or even free zones that offer a variety of benefits to start-ups—it's more than a rewarding experience for those who choose to set up a business in Dubai. In this regard, the Dubai Future Foundation has partnered with local institutes to launch entrepreneurship programmes to nurture a spirit of entrepreneurship among the youth.

The foundation also aims to bring together government and private entities to help start-ups flourish and has launched the Dubai Future Accelerators (DFA) initiative to support entrepreneurship.

Dubai Start-up Hub, which is run by the Dubai Chamber of Commerce and Industry, offers services, workshops and training to help start-ups and entrepreneurs.

INFINITO- SPORTS MEET 2022

While studies are undoubtedly important for a student, sports and physical activities are equally important for their well-being too. It is a universal truth that a healthy mind can only reside in a healthy body. This is the reason why sports form an important part of VVGI's curriculum. Our college celebrated its annual sports meet from 15th to 17th of March this year.

The three-day long event started off with march past. Starting from indoor games like Table Tennis and Carrom to outdoor games like Football and Throwball, the students participated in numerous activities throughout these three days with immense enthusiasm.The grounds were also very particularly laid down; white chalk powder lines were neatly drawn for different events. While the participants displayed their skills, the teachers and other students took their time out to cheer for them, raising the participants' spirits and also enjoying the intense game themselves too.

Events like these create a sense of sportsmanship amongst the students, which is certainly an invaluable quality one must have in life.Along with great fun, it is also a good learning experience. Apart from games and sports, students learn to carry forward a sporting spirit with them.

The objective of the annual sports day is to bring out the talents and sportsman spirit of all the students.It is only fair to say that the combined efforts from both the management and the students made the event a success. Sports day is also important as it instigates the significance of physical exercise in the students. It is important for a student to play some sport. Playing a sport regularly keeps children fit forever." said Mr.S.Karthik, a faculty member from BS-CS.

The Food Mania

The department of MBA set up a food fest containing stalls of all types of food varieties that the students are fond of.
The last day was not only enjoyable to the heart but also made the mouth tastier with the food stalls arranged in the campus. The food stalls consisted of the traditional , western and local varieties which were a feast to the mouth! The basic hits during the old and the recent times in food-"The GOLISODA " were made available in the campus which satisfied the thirst that was created by the final cricket match.

National Conference

VVISM hosted its national conference on 26th march 2022. This year's theme was 'Innovation and Strategies for Economy and Business: Pandemic and Beyond'.Quite a few representatives from various sectors such as corporate,academia along with research scholars and students of business schools participated in this program.The delegates attended and presented their research papers on various business related fields like marketing,finance,HR,operation and IT.

VVGI BRINGS LAURELS WITH PRIDE

In the Third Edition of Ambitious Awards for Education Excellence 2022 held at The Manohar Hotel in Begumpet on 26th and 27th March, VVGI managed to bag numerous awards in various categories. Ambition's major objective is to help students make informed, research-backed career choices, especially in the area of management and help them in achieving their career objectives. In an event where more than 20 colleges participated, the crowd witnessed VVGI's excellence. Dr. V.D. Santhosh Kumar received an award for "Distinguished Faculty For BBA" and Prof.D.Sreepal received an award for "Best Faculty for BS-MS".

Women's Day

To celebrate women and their achievements, the students of the BS.CS Department organized a program on the 8th of March. Students dressed in fancy attire and got involved in various activities. The program began with a speech on the significance of the day and continued with melodious yet heart-touching songs. This was followed by an interactive session where the organisers asked the audience to respond to thought-provoking questions. The audience's responses were quite interesting and appreciated by the faculty. One of the students addressed the gathering with her heartfelt expressions. The women faculty were called onto the stage and felicitated. The teachers also shared their views on the role of women in present-day society. The program came to an end with a delicious lunch hosted by the students.

Traditional Day

India is known for its vibrant and diverse festivals that bring people from different walks of life together. The traditional day was celebrated on March 31st by the students of the B.S and BBA departments to recognize the diverse and varied Indian traditions.

The students showed up in ethnic attire and spent their day decorating the classrooms, creating a festive atmosphere. The rooms were embellished with garlands and assortments of different flowers and other decorative items unique to the festival. Students also prepared numerous delicacies that are offered at these festivals.

The college emanated a traditional vibe, symbolising India's rich and varied culture. Festivals like Dussehra, Diwali, Ramzan, and Ugadi were a few of the many festivals represented with full enthusiasm by the students. The faculty also played a crucial part in guiding and helping the students with these tasks.

Events like these are perfect opportunities for students to remember their ethnic roots and showcase qualities like creativity and teamwork while involving themselves in an enjoyable time. The faculty appreciated the students for their efforts and coordination in making the event successful

MBA Freshers

One of the glorious events of youth which depicts the enthusiasm and let the anxiety levels high has taken place in VVISM. The youth of MBA have taken the initiative and welcomed their juniors with warm 'freshers'.
The event went on with joy from start to the end. It got lit with a sparkling 'Ramp walk' of the pairs where it gave surprises to both audience and even the participants.
Beginning at dawn till the dusk it got itself filled with the various tasks and eye sparkling performances. The students danced their hearts out! They let the stage on fire from morning to evening leaving it during lunch. The active participation of the faculty has set a backbone to the occasion. The students led their programs in a processed manner. Furthermore, their attire attracted the theme of the event... as girls dolled up themselves into beautiful women... and boys went parallelly with them. The day went on to be a great success with everyone's contribution out there.
